## Projects

### Game Portal

June 2021 - August 2021

Game portal is the place where you can search and discover your next favorite game. There are over 245 000 game titles. Sort and filter games by tags, genres, stores, developers. Read detailed reviews about games, find similar games and stores where you can purchase them. Made from scratch using React (NextJS) and games API.

### Movie Geek

February 2021 - March 2021

Website where you can find upcoming, popular, top rated TV Shows or Movies. Also, you can find all details about specific Movie or TV Show. Made from scratch using JS, HTML, CSS, Bootstrap and movies API.

### Excellence Holdings

May 2021 - June 2021

Excellence Holdings is a (fictional) bank, and its idea is to allow people to manage their credit cards. Excellence Holdings has many features like: creating new user, card, transfer money to another user, lend a loan, make deposit and investment goals... Made from scratch using React (NextJS) and Firebase.

### Personal Portfolio

September 2021 - October 2021

Portfolio website where you can find more details about me and my work. Made from scratch using React (NextJS).
